

How to Add Yourself to the Women in AI Speakers Directory

Follow the steps below to add your profile to the Women in AI Speakers Directory on the UKAI member portal.

1. Login / Create your UKAI account

Visit the [UKAI login / registration page](#) and create your member account.

If you already have an account, make sure you are logged in.

2. Update your public member profile

Go to your [public profile editor](#) & update the following sections:

- Profile photo: upload a clear, professional image.
- Organisation & job title: confirm or update your current role.
- Bio: add a short introduction about your work, experience, and areas of expertise & include a sentence on how organisations should reach you (e.g. a public email you're comfortable sharing).
- Social links: add any LinkedIn, Twitter, or website URLs.
- Visibility settings: for any fields you want shown publicly, make sure they are set to "Show."

B / I U

[Name] is an AI and technology leader with experience spanning venture building, product strategy, and scaling SaaS businesses. Previously, [she] served as Head of Product Strategy at InnovateLab, leading AI product development across a portfolio of early-stage ventures, and as Commercial Director at DataFlux, supporting enterprise clients in responsible AI adoption. Her work focuses on helping organisations unlock the value of AI, with a particular emphasis on financial services and enterprise transformation. She regularly speaks on AI leadership, risk & regulation, and the future of intelligent products.

For speaking enquiries, she can be contacted at: your.email@example.com
